## Electronic Correspondence and Vote of the Board of Directors

June 17 through June 19, 2003

On Tuesday, June 17, 2004, at 11:33AM, through [BOARD@ACGS.ORG](mailto:BOARD@ACGS.ORG), President Marcel Jussaume wrote:

“I wanted to get a couple of questions out on the sign.

1. Do we want to ask that the installation be held off until the beginning of September? So that it is brand new and installed just before the conference?
2. Do we go ahead and have the sign put at a 45 degree angle to the corner of Elm and Baker? So that it is visible both heading south on Elm and West on Baker or just perpendicular to Elm St.?

Please reply to the [board@acgs.org](mailto:board@acgs.org) “

Response was as follows:

	<u>Question #1</u>	<u>Question #2</u>	
Lucie LeBlanc-Consentino	NO	YES	6/17/03, 11:37AM
Amber Beland	NO	YES	6/17/03, 1:31 PM
Julie Smith	NO	YES	6/17/03, 3:08 PM
Larry Autotte	NO	NO	6/17/03, 4:11 PM
Diane Thibault	NO	YES	6/17/03, 4:44 PM
Bob Paquette	NO	NO	6/17/03, 5:40 PM
Norma Boyce	NO	YES	6/17/03, 6:01 PM
Paul Lambert	NO	No Preference	6/18/03, 4:40 PM
Marcel Jussaume	No Preference	YES	6/18/03, 4:42 PM
Muriel Normand	NO	No Preference	6/19/03, 6:17 PM

No response received:

I wanted to get a couple of questions out on the Sign.

- 1) Do we want to ask that the installation be held off until the beginning of September? So that is it brand new and installed just before the conference?
- 2) Do we go ahead and have the sign put at a 45 degree angle to the corner of Elm and Baker. So that it is visible both heading south on Elm and West on Baker or just perpendicular to Elm St?

please reply to the [board@acgs.org](mailto:board@acgs.org)

Thanks,  
Marcel

Hi Marcel - I would suggest that we have have the sign installed ASAP that they have time to do it. We might be taking a chance if we say September and they get a bigger job and put us on hold. What do you think?

At the meeting we did agree to put the sign at a 45 degree angle ;o)

Since everybody is voting on the angle of the new sign, I want to go on record of voting for it to be positioned diagonally.

Thank you.

Hello all,

I like the idea of the sign being at the 45 degree angle - seems that this would make it easier to see from all the busy roads - as for the time - I think as long as it is up before the conference that should work - I don't think that it needs to be just before the conference - whatever works to get it there before September.

Hi,

I really don't care when it is installed; however, I do like the angle idea. Wouldn't a sign be for everyone and summer people do travel and do genealogy, so wouldn't it be useful now as well? That is just a thought, but the angle is a definite.

**Subject:** New ACGS sign

Hi Marcel,

1. Go ahead with sign ASAP, what's a few more weeks one way or the other!
2. I think the sign should facing Elm St., completely parallel to the street, due to its size it would be essentially readable North/South and East/West.

- 1) Have the sign installed ASAP - we are only 12 weeks away from the fall conference now
- 2) RE: Angle - if the 45 degree angle gives it readability from Elm as well as coming in from Baker (across the street from us), then that would be ideal.

Hello all,

Regarding the sign:

1. I think the sooner we get the sign installed the better. As Julie stated it is vacation season and many people are out and about; so the more exposure we can get will be a definite plus. Earlier installation will also allow us to think about placement of a banner for our 30th and how we will go about accomplishing that.

2. As far as the angle is concerned, I think that 45 degrees would be too sharp an angle and would limit visibility from the southbound cars on Elm St. I think Larry's idea of the sign being parallel to Elm St. would enable it to be seen quite well from all directions. I believe the positioning should be as close to the corner as the set backs allow so as to maximize visibility from oncoming traffic in the Baker St. direction. It would also get the our sign out beyond the 'No parking here to corner' sign and not block visibility due to parked cars.

Just a few of my thoughts,  
Bob

I vote that we install the sign as soon as possible.

I also vote that we put the sign at a 45 degree angle so that it can be seen from both Elm and Baker Sts.

I say go ahead with the sign if we have not had any reply from the other vendors.

As for the angle I have no choice.

Paul

Yes, do purchase and mount the sign now and as far as orientation, depending on the setback it may be seen from Baker St. without any angle. The important thing is that it be seen from Elm since the bulk of folks searching for us I think come across the bridge that it be visible from the corner of Queen City as well
